

GANESHKUMAR

QA Automation Engineer

Chennai / Noida, India | +91 9789524985 | ganeshkumark1325@gmail.com | LinkedIn: ganeshkumar-13

SUMMARY

QA Automation Engineer with 4 years of experience building and scaling test automation for complex web and mobile products. Expert in Java, Selenium, and Appium, with a proven track record of converting manual test flows into reliable CI/CD-integrated suites. Recognized for high-quality releases and strong collaboration in agile environments.

SKILLS

Automation: Selenium WebDriver, Appium (Android & iOS), Hybrid Frameworks, POM, Data-Driven Testing

Programming: Java (Core, OOP), JavaScript (Basic), TestNG, Maven

Testing: Regression, Functional, Sanity, Smoke, Ad-hoc, Localization (L10n), Internationalization (I18n)

Tools / DevOps: Git/GitHub, JIRA, Confluence, Postman, Sauce Labs (Cloud Device Labs), CI/CD

PROFESSIONAL EXPERIENCE

Quality Engineer — Qualitest, Chennai, India | 2022 – Present

- Designed and maintained hybrid automation frameworks (Selenium / Appium / Java) for web and mobile Adobe applications, supporting 20+ locales.
- Automated end-to-end regression and functional scenarios, reducing manual effort by 30% and increasing overall test coverage.
- Combined POM and data-driven concepts into reusable components, improving script scalability and reducing maintenance effort and onboarding time by 30–40%.
- Contributed to Gen AI-based initiatives to accelerate test case design and initial script generation for repetitive regression flows.
- Received the HighQ Award for consistent contributions to product quality and delivery timelines.

KEY PROJECTS

Cloud-Based Test Automation Strategy | Web & Mobile

- Built and maintained test suites directly in the cloud, eliminating local environment setup dependencies.
- Integrated automated test runs into CI/CD pipelines for nightly and on-demand execution.
- Orchestrated testing across a realistic device matrix using cloud-based device servers to validate OS versions and screen resolutions.

Adobe Suite Framework Architecture | Web / Android / iOS

- Architected a unified hybrid automation framework supporting web and mobile flows with common locator strategies and utilities.
- Implemented comprehensive test data handling and modular page classes, improving script readability and scalability for new features.

EDUCATION

Bachelor of Engineering (BE), Computer Science | CGPA: 7.13

Coimbatore Institute of Engineering and Technology | 2018 – 2022

CERTIFICATIONS & AWARDS

HighQ Award – Qualitest (Excellence in software testing and delivery)

Introduction to Generative AI and Prompt Engineering – QCraft Learning (2025)
